Open Mic - Open Floor

An Opportunity to Share Your Significant Events or Milestones from 2024
What's up for you in 2025
3-minute time limit per person

Open to all attendees including exhibitors and presenters.

*** The **Open Mic – Open Floor** is new this year. The goal is to provide a platform for individuals, local FBO's or Shops to give a plug for their business. This is also an opportunity for exhibitors, presenters or sponsors to share information about their business or product. ***Each will be limited to three minutes.*** I plan to open this opportunity with an AI generated overview of 2024 Nebraska Aviation happenings shortly after being seated for our meal.

**Closing Remarks, Grand Door Prizes and Wrap Up of the
2025 Nebraska Aviation Maintenance & IA Renewal Seminar**

**An Opportunity to Make a Difference
Sponsor a Student**

A growing shortfall of technicians is prompting the industry to rethink strategies for educating, recruiting and retaining talented and qualified personnel. Our industry is in urgent need of pilots and mechanics including airframe and powerplant (A&P) mechanics and aviation maintenance (AMT) and avionics technicians. In recent years, the Nebraska Aviation Maintenance Seminar has actively encouraged students from nearby A&P schools to attend our event by offering free registration. At this year's event, we have the opportunity to welcome **sixteen** students from **Western Nebraska Community College** in Sidney, NE to a rewarding career in Aviation Maintenance.

To help cover the costs involved in hosting these students, we are offering the opportunity for our industry partners to become involved as well. When you check-in at our event desk, ask Wendy, **How May I Sponsor a Student or Students?** Your sponsorship will be recognized during the event.
